Team Feedback form

It's called "Happy or Sad" https://forms.gle/gxHo3TRQ2wUsQvx6A

> This Google Form is intended to provide feedback to each other about things that have caused Pain or brought Joy. Sometimes it's hard to do that face to face - either because of perceived hierarchy, or because it's hard to find the right moment. We all say we want feedback, but it's super hard to give, thus limiting growth. Although logging feedback requires you to log in, any feedback that is passed on will be done so anonymously. (Logging in helps judge how widespread a problem is and prevents abuse of the form.)
> I will try to pass on all positive feedback, but I'll use my discretion as to what negative feedback to pass on, when and how. None of us want to know every little thing we do that irritates someone, but we do want to know trends and specific examples of significant offence that we may not have been aware of.
